## Summary

---

Software developer with hands-on experience building and deploying full-stack web, mobile, and desktop apps. Skilled in React Native, Node.js, and .NET, with a strong emphasis on clean code, modular architecture, and responsive design. Delivered production-ready features in agile teams, translating client requirements into stable, scalable software used in real-world environments.

## Experience

---

### Freelance/Self Employed | India

#### Full Stack Web Developer | 01/2025 - Present

- Built and deployed responsive, scalable web apps tailored to client needs
- Developed an invoice SaaS with real-time dashboards and customer tracking
- Delivered lead-gen websites for **Mentore Agro Products** and **MoveWise**, optimized for SEO and speed
- Created an online bicycle store with advanced product filters and responsive UI
- Engineered an agent tracking and inventory system with real-time GPS and live reporting
- Managed full-stack development across UI/UX, APIs, authentication, and cloud deployment

### Self-Employed (Remote) | India

#### Mobile App Developer | 06/2024 - 10/2024

- Built **Kant**, an anonymous social app using **Flutter** and a custom **Node.js + PostgreSQL** backend with real-time feeds and encrypted data storage.
- Developed a privacy-first architecture with **Socket.IO**-based communication, **local encryption**, and no third-party tracking.
- Delivered a lightweight Android app (under 15MB) optimized for low-end devices; completed build in **under 3 weeks**.
- Integrated **Firebase Cloud Messaging** for real-time push alerts and designed clean, intuitive onboarding for better user retention

### Self-Employed (Remote) | India

#### Software Engineer | 05/2023 - 11/2023

- Engineered **Banker**, a desktop app for pawnshop operations using **C#** and **SQLite**, streamlining loan tracking and reducing processing time by **3x**.
- Enabled full offline access with **encrypted data storage**, manual **backup/restore**, and no internet dependency.
- Integrated **RDLC reporting**, printable receipts, customer and loan management features, and a **multi-role access system**.
- Designed a user-friendly UI tailored for non-technical staff; **trained 4+ users** with zero onboarding support.
- Deployed in a live pawnshop, the system has been running **over 1 year** with minimal support or maintenance needs.

## Skills

---

C, C++, C#, React Native, HTML5, CSS3, Tailwind CSS, Node.js, Google Sheets API, Firestore, PostgreSQL, SQLite, n8n Automation, Git, VS Code, Postman, GitHub, GitLab

## Languages

---
